

## Health, Safety and Environmental Policy Statement

Summit ESP is committed to conducting its business operations in a manner that protects the environment, health and safety of our employees, customers and the global communities where we operate.

We recognize that by integrating sound health, safety and environmental management practices into all aspects of our business, we can offer technologically innovative products and services while conserving and enhancing our resources for future generations.

**Summit ESP strives for continuous improvement in its HSE program and has set forth the following objectives:**

- Health, Safety and Environmental protection are responsibilities shared by every employee with full support and commitment from management.
- Create a strong HSE culture with high personal standards and accountability.
- Provide the resources necessary to implement the HSE program.
- Meet or exceed all applicable health, safety and environmental requirements.
- Eliminate injuries by using leading indicators to measure proactive performance.
- Train employees to work safely with an understanding of the known hazards, learn from experiences and share best practices.
- Identify conditions in the workplace that may present health, safety and environmental concerns and implement procedures to proactively address the issues.
- Conduct job risk assessments regarding the health and safety of employees and persons outside the company that may be affected by work activity.
- Communicate all HSE policies and procedures to all employees.
- Comply with all applicable laws and regulations, and respect the interests of local communities.

Summit ESP will maintain a healthy workplace, strive to prevent accidents and minimize adverse impacts to the environment.
